CASABLANCA

CREATIVE DOORS

Cedarlam Casablanca is a gorgeous collection of premium quality door skin laminates, brought to you by a highly skilled, professionally managed and a highly accredited company in India.

Keeping quality in mind, the manufacturing plant is certified for IS 2046:1995, ISO 9001:2015 and British European Standard BS EN 438 and the American NEMA LD 3 standards. We have incorporated a 7-point quality control system to ensure that every single one of the laminate sheets goes through seven different quality control check points during its production period. This ensure that only highest qualities of products are made available to our valuable customers.

Our factory also has a state-of-the-art-chemical plant, which manufactures quality resins used in the production of laminates. Having a modern plant allows our R&D team to experiment with innovative materials to produce quality resins that will stand the test of time.

Special care has been taken to ensure only creative & innovative texture and designs are selected to build the Cedarlam Casablanca collection, which will facilities consumers to customize & beautify their doors, as they seem for.

PRODUCT WARRANTY	
Company provides warranty that the product is free from any manufacturing defects and is suitable to use for normal and usual purpose. In case of any visual defects, the product should not be used, cut, or altered in any manner. Company liability will be limited to the extent the cost of product only. The colour/shade may vary from lot to lot. Do inspect properly before using the product. Company will not entertain any claim if the product is cut or altered in any manner for any visual or appearance, shade change/difference.	
Our standard Decorative Laminates are COLD PRESS GRADE LAMINATES, Which are recommended for cold pressing only. Company will not entertain any claim of quality if the Laminates are pressed in HOT PRESS. HOT PRESSED GRADE laminates are available against Special Order.	
*Formation of Air Bubbles and forming of Corner Cracks are application fault. Company do not entertain these complaints	

PRODUCT TECHNICAL DATA & SPECIFICATIONS		PRODUCT CARE AND MAINTENANCE	
Type	Conventional standard cold press interior grade laminate	For cleaning the surface of the laminates, use dry cloth to wipe the surface. If needed can use ordinary liquid detergent (non-acidic) or ammoniated liquid. After testing a trial on small portion. Blain remover or industrial organic solvents can be used to remove stubborn stains in case if there is no problem. One should not use, wire or hard-plastic brushes, and abrasives to clean the surface.	
Thickness	0.92 mm ± 10% (As per ISI Standard)	The LUSTROUS Finishes and Wood collection are specially made laminates to give bright optical view. The properties of these laminates are very sensitive and thus should be used only for vertical applications. While cleaning these laminates use only dry cloth or wet daisy cloth in natural water only.	
Size	7' x 3'	Since, conventional laminates are made for interior decorations, should not be used for external use where there are chances for direct exposure to sunlight or any other sort of direct heat.	
Product Standard	Comprising to • British European Standard : BS EN 438 • American NEMA LD 3 • BIS (Bureau of Indian Standard) : IS-2046 • BIS (Bureau of Indian Standard) : IS-2036 • Grade P1 Phenolic/Electronic Insulation. • ISO 4586.	It is always recommended to keep the substrate horizontal while pasting the laminates. Immediate removal of pressure and vertical application should not be practiced.	
		Samples pasted in the folder represents the finish & design and not the actual thickness.
