This ensure that only highest qualities of products are made available to our valuable customers.

Our factory also has a state-of-the-art-chemical plant, which manufactures quality resins used in the production of laminates. Having a modern plant allows our R&D team t experiment with innovative materials to produce quality resins that will stand the test of time.

Special care has been taken to ensure only creative & innovative texture and designs are selected to build the Cedarlam Casablanca collection, which will facilities consumers to customize & beautify their doors, as they seem for.
